A.C. ANDERSON
COLUMBUS, NEB.

Introductory

The pleasure of presenting our seed catalog to old and new friends once more devolves upon us. First, we wish to thank all for their kind appreciation and patronage, a continuance of which we will try to merit by careful attention to your orders. It shall be our earnest endeavor to make Platte Valley Peerless Seeds give satisfaction. Our seeds are grown with great care by men who know how to grow seeds; they will be found of the highest vitality, giving a high germinative test, with which is coupled the highest grade of purity. You cannot afford to buy your

seeds out of the commission boxes at the country stores, as they are of very doubtful vitality and obscure purity, a fact which many of my friends no doubt have verified from experience. Seeds that fail to grow entails not only the loss of the seeds but the labor of planting, the loss of time, which may retard the production of a crop and cause an estimable pecuniary loss, not mentioning the aggravation and worry. Another point is genuineness and purity of stock, which is maintained by careful selection. Thousands of customers have planted our seeds continuously for years which demonstrates that they give satisfaction. If you have never tried our seeds you should do so this year, we are confident a fair trial will make you a permanent customer.

Our Guarantee. We offer first-class seeds only and are ready to back them by the following guarantee: Any seed not entirely satisfactory may be returned and we will refund the money. Any that may fail to grow we will replace free of charge without any argument about the matter. We cannot guarantee or be responsible for the crop, and in no case will we be responsible for any amount greater than the cost of the seeds.

How to Order. Seeds, bulbs or plants are easily ordered by mail. Use our order sheet if you have one, write your name post office, county and state first, then the quantities and varieties you want, carrying out the price and enclose the total amount in any convenient form of remittance and send it to us by mail.

How We Ship. Quantities of one pound and under are sent by mail, postage paid, at prices given in this catalog, unless otherwise noted. Larger quantities will be shipped by express or freight, purchasers paying charges.

How to Send Money. The most desirable way of remitting is by either Post Office Money Order, Bank Draft or Registered Letter. Do not send postage stamps when you can avoid it, as we cannot use them except for paying postage.

Address all orders to A. C. Anderson, Columbus, Neb

Coupon B

On receipt of this Coupon and 25 cents, I will send you the following

10 FINE GLADIOLI,

blooming size bulbs, that will produce large and beautiful spikes of gorgeously colored flowers.

America. A light, soft pink, with fine spreading flowers. A grand sort.

Empress of India. A deep maroon variety; very unique.

Anchusa Italica

The beautiful Dropmore variety, a pretty plant.

Aquilegia

The charming Columbine, a favorite hardy plant.

Delphinium

Gold Medal Hybrids. Noted for beauty and diversity. A mixture of charming and rare varieties.

Hollyhock

The favorite of our grandmother's flower garden. Greatly improved varieties, that are bound to please.

Pyrethrum

A very desirable hardy plant.

Finest double and single.

SPECIAL OFFER

As a special introduction inducement for every one to try these Popular Perennials we will with the first 500 collections sent out add one packet of

Mallow Marvels

Majestic perennials with monstrous flowers of rich and pleasing colors. These are not only magnificent in floral beauty; but are as hardy as an oak.

A. C. Anderson, Columbus, Nebraska

VEGETABLE SEEDS

We take pleasure in presenting our list of Vegetable Seeds, having endeavored to include the best of the standard varieties and some of the best of the new sorts. We are confident we can furnish you as good seed as any seedhouse, and if you will favor us with an order we will try to merit your kindness by supplying you with seeds that you can rely on as to purity and vitality. Do not pay excessive prices for your seeds when you can get seeds that will compare favorably with the best at reasonable prices. That is the kind we sell, and you will not go amiss if you send us your order; you will always find our packets well filled as it shall be our endeavor to merit the appellation the "big packet" seed house. The continued patronage of customers is conclusive proof that our seeds satisfy our patrons. At the prices quoted we send the seeds by mail, postpaid, unless otherwise specified.

ASPARAGUS

COLUMBIAN MAMMOTH WHITE. Large white shoots, very tender, and of delicious flavor. A large number of the seeds will give white shoots and the green ones can be rejected when setting out the permanent bed. Pkt. 5c, oz. 10c, 1/4 lb. 35c.

BONVALETTE'S GIANT. A new variety that is ready to cut fully a year earlier than other varieties. It is nearly rust-proof, and on that account will prove valuable in localities where that disease prevails. Pkt. 5c, oz. 10c, 1/4 lb. 35c.

BEANS

Green Podded Bush

BURPEE'S STRINGLESS GREEN POD. An early, green podded bean that produces edible pods in 42 days. The pods are absolutely stringless, so much so, that they break short and free like pipe stems. This is one of the finest beans grown. Pkt. 5c, 1/4 lb. 10c, lb. 40c.

GIANT STRINGLESS GREEN POD. This is a strong growing variety, with slightly curved pods, round and meaty. It is medium early of excellent quality and has no superior for home or market. Pkt. 5c, 1/4 lb. 10c, lb. 40c.

BOUNTIFUL. An enormous yielder, producing large pods, which are tender and of fine quality. The plant is remarkably handsome, of thrifty growth, and practically rust proof. It is very hardy, extremely early, very prolific and continues bearing a long time. Pkt. 5c, 1/4 lb. 10c, lb. 40c.

EARLY VALENTINE. One of the best snap beans grown; an old standby that has stood the test for years. Of fine quality and a good yielder. The vines are vigorous and erect growing with heavy leaves that makes it possible to withstand wind and weather better than most sorts. The pods are very fleshy, crisp and tender. Pkt. 5c, 1/4 lb. 10c, lb. 40c.

Burpee's Stringless Green Pod

Wax Pod Bush Beans

Golden Butter Wax

GOLDEN BUTTER WAX. This is unquestionably the leader among wax beans and should be grown by everyone who enjoys a rich, succulent snap bean. It is the earliest, and on account of its hardness will come in perfect form even in adverse seasons. In productivity it out-yields most other varieties. The plants are strong and erect growing, which keeps the pods well up from the ground. The pods are of a rich golden color, tender, brittle and absolutely stringless. Pkt. 5c, 1/4 lb. 10c, lb. 40c.

er that will withstand the ravages of the rust better than any known variety. Long, straight and tender pods. This bean can be used both as a snap short and a shelled bean. It is of extremely high table quality and is unexcelled for canning purposes; preeminently the all-around bean. Pkt. 5c, 1/4 lb. 10c, lb. 40c.

PROLIFIC BLACK WAX. This is the earliest maturing wax podded variety. It is of dwarf, bushy growth and wonderfully prolific. Pods 4 to 5 inches in length, usually curved, quite round, meaty, brittle and entirely stringless; deep golden yellow. We have found no bean that will excel it in flavor. Pkt. 5c, 1/4 lb. 10c, lb. 40c.

WARDWELL'S KIDNEY WAX. A very productive early wax bean. A strong grower that withstands rust and blight remarkably well. A first class snap bean, but equally valuable for dry shell beans in winter. The pods are long and of a delicate yellow, stringless and tender. Pkt. 5c, 1/4 lb. 10c, lb. 40c.

Davis White Wax

FIELD BEANS

WHITE TREPARY. A wonderfully productive white soup bean peculiarly adapted to a dry climate, as it is a great drought resister, and will produce a crop when other varieties fail. A bean of superior cooking quality. Pkt. 5c, 1/4 lb. 10c, lb. 30c.

PROLIFIC TREE. The most prolific of the navy beans; bean not large but fine form; cook easy and is a favorite with housewives. Pkt. 5c, 1/4 lb. 10c, lb. 30c.

Bush Lima Beans

BURPEE'S BUSH LIMA. The introducer claims this to surpass anything of the Bush Lima type. Large pods, excellent flavored beans, borne on large, vigorous plants. Extremely prolific, hanging in enormous clusters. Pods contain from four to six beans of greenish white color. Pkt. 5c, $\frac{1}{4}$ lb. 10c, lb. 40c.

HENDERSON'S BUSH LIMA. A wonderful cropper, producing more beans to a given area than any other lima bean we know of. It is early, hardy and free from disease. It should be found in every family garden and is a paying crop for market gardeners. No one can fail with this excellent lima bean. Pkt. 5c, $\frac{1}{4}$ lb. 10c, lb. 40c.

WILSON'S BUSH LIMA. This is the earliest of the large seeded Bush Lima Beans. The first pickings fit for the table may be taken in August and from that time until frost a continuous supply may be gathered. They are very productive, producing immense crops of large beans of luscious flavor. Pkt. 5c, $\frac{1}{4}$ lb. 10c, lb. 40c.

Pole Beans

KENTUCKY WONDER. An excellent green podded variety; enormously productive, the long pods hang in great clusters along the entire vine. The pods are very crisp and tender when young. Pkt. 5c, $\frac{1}{4}$ lb. 10c, lb. 40c.

LAZY WIFE. One of the best snaps of the later green podded pole beans. Pods borne in large clusters, are long, broad, thick and fleshy. Dry beans are excellent for winter use. Each pod contains from six to eight round white beans. The pods are exceptionally large and thick. Pkt. 5c, $\frac{1}{4}$ lb. 10c, lb. 40c.

BURGER'S STRINGLESS GREEN POD. By some called White Seeded Kentucky Wonder. This early bean is a splendid sort, of fine quality and entirely stringless; long bearing vines. The pods are borne in clusters, six to eight inches in length, are uniformly straight, of rich dark green color and very meaty in flavor. The dry beans are nearly white and fine for baking. Pkt. 5c, $\frac{1}{4}$ lb. 10c, lb. 40c.

WONDER WAX. This is one of the best and most productive pole beans known. A vigorous, hardy grower, unexcelled in productiveness and produces large, flat pods 5 to 6 inches long of a clear waxy yellow, strictly stringless, fine grained, brittle and of excellent quality. Pkt. 6c, $\frac{1}{4}$ lb. 10c, lb. 40c.

GOLDEN CLUSTER WAX. This is one of the finest pole beans in cultivation. The pods retain their tenderness and plumpness long after the beans have attained a large size. The pods are stringless, a beautiful golden yellow, and are from 6 to 8 inches long, borne profusely in clusters of 4 to 6. The seeds are pure white. Pkt. 5c, $\frac{1}{4}$ lb. 10c, lb. 40c.

EXTRA EARLY LIMA. This early variety will produce a crop where other varieties will not mature; it grows quickly, is immensely productive and continue in bearing throughout the season. Pkt. 5c, $\frac{1}{4}$ lb. 10c, lb. 40c.

KING OF THE GARDEN LIMA. The old standard market and family sort. The vine begins to produce pods at the foot of the pole, and the bearing season continues until frost. Pkt. 5c, $\frac{1}{4}$ lb. 10c, lb. 40c.

BEETS

For Table Use

Early Eclipse Beet

fine grained and of delicious flavor. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c.

EXTRA EARLY EGYPTIAN. This is the earliest beet grown, and is fine for market and home gardens. The roots are deep crimson; tops small, which admits of close planting. For forcing this variety is unexcelled. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. \$1.00.

EARLY ECLIPSE. An extra early, rapid growing variety of perfect, globular form, and beautiful crimson flesh. It is

Crimson Globe Beet

fine grained and of delicious flavor. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c.

CRIMSON GLOBE. An extremely handsome early variety, of medium size, globe shaped and entirely free from rootlets, leaving the skin perfectly smooth. The flesh is a rich blood red. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 1.00.

EDMUND'S BLOOD TURNIP. One of the most uniform of all turnip beets, with very small tops. The bulbs are handsome and round, very smooth and of good marketable size. In quality it ranks with the best, being very tender and sweet. The skin is deep blood-red, and the flesh is deep crimson. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. \$1.00.

EARLY MODEL. This variety is very early, with small tops and beautiful globe shaped roots of the finest quality. The beets are very attractive and of the deepest blood-red color. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. \$1.00.

LONG DARK BLOOD. This is the standard long winter variety. It has a small upright top and the roots are of a deep blood-red. This beet is the best keeper, lasting till late in spring. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. \$1.00.

SWISS CHARD. This produces no roots; it is grown for its tops only, which are esteemed a delicacy for greens. The stem and midrib may be cooked like asparagus, the rest of the leaf like spinach. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c.

BEETS--For Stock Feeding

GIANT HALF-SUGAR. This variety combines the best qualities of the sugar beet and mangels. It is a heavy yielder, sweet and nutritive. Roots are large, smooth and clean. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 75c, 5 lbs. \$3.25.

DANISH GIANT SLUDSTRUP. This has a long ovoid root, growing more than half above ground, easily harvested. An enormous yielder and very nutritious. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c, 5 lbs. \$3.25.

MAMMOTH LONG RED. This is the largest of the mangel beets, single roots having weighed 30 pounds, and always of fine texture and quality. Profitable to grow for stock. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 75c, 5 lbs. \$3.25.

GOLDEN TANKARD. The best type of intermediate mangel; small top, smooth, very solid flesh of a deep yellow color, nutritious in milk producing qualities, and a heavy cropper. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 75c, 5 lbs. \$3.25.

BORECOLE or Kale

GREEN CURLED SCOTCH. A finely curled, low growing variety, the leaves of which when properly cooked make a very palatable dish of greens. The leaves are long and of attractive bright green color. This sort is often used for garnishing. Pkt. 5c, oz. 15c.

BRUSSELS SPROUTS

These resemble miniature cabbages, growing closely on the stalk of the plant from top to bottom. The sprouts are improved by freezing. Sow in early June, transplant into rows two feet apart, eighteen inches apart in the row. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 70c.

CABBAGE

Copenhagen Early Market
hardness not only to resist cold but other unfavorable conditions, insures the greatest likelihood to success. Pkt. 5c, oz. 20c, ¼ lb. 60c, lb. \$2.00.

ALL HEAD EARLY. One of the largest of the early cabbages, always sure to produce uniform and solid heads. The heads are deep, flat top, solid as a rock and entirely free from loose, spreading leaves. On account of its compactness more heads can be grown to the acre than any other early summer variety. Pkt. 5c, oz. 20c, ¼ lb. 60c.

DANISH BALL-HEAD. This is remarkable for its handsome appearance, great solidity, exceptionally fine quality and as one of the best keepers it is particularly desirable for shipping. It is vigorous, compact, with stems of medium length, and exceedingly hardy. The head is medium sized, round and solid. The wonderful keeping qualities of this cabbage makes it possible to keep the heads in good condition till spring. Pkt. 5c, oz. 20c, ¼ lb. 70c, lb. \$2.00.

MAMMOTH LATE FLAT DUTCH. The heads are large, round, very solid, broad and flat on top, and of a beautiful bluish-green color with but few outside leaves. One of the very best to keep, are crisp, tender and well flavored. The universal hard heading qualities can be depended upon. Pkt. 5c, oz. 20c, ¼ lb. 70c, lb. \$2.00.

SUREHEAD. This is one of the most reliable of the late cabbages, and can always be depended upon for the main crop. The head is large, thick, somewhat flattened, very solid and uniform in size and color. A sure header and a reliable shipper. Pkt. 5c, oz. 20c, ¼ lb. 70c, lb. \$2.00.

PERFECTION DRUM-HEAD SAVOY. Closely approaching the cauliflower in delicacy and delicious flavor. This is the best of the curly headed cabbages for general market and home use. It grows to a large size, is compact and solid, and a good header. Pkt. 5c, oz. 20c, ¼ lb. 70c, lb. \$2.00.

MAMMOTH ROCK RED. This is the largest and hardest heading cabbage in cultivation. The heads frequently average 12 pounds each, and are very sure croppers. Pkt. 5c, oz. 20c, ¼ lb. 70c, lb. \$2.00.

Danish Ballhead

Chanteney Carrot.

CARROT

EARLY SCARLET HORN. One of the most popular of all varieties, and a general favorite for early crop. Flesh deep orange, finely grained and of agreeable flavor. The tops are small, has short, thick root, hence are easily pulled. Grows well in shallow soil, of fine quality, yields well and sells well. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. \$1.00.

CHANTENAY. A most desirable early variety for bunching and, although a trifle later than the first earlies, will yield so much handsomer roots and larger crop that everyone is pleased with it. A splendid variety for market or feeding purposes. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. \$1.00.

OXHEART. This is an early, short, thick carrot, admirably adapted for bunching while small. Flesh bright orange, fine grained and sweet. Excellent for the table, and unsurpassed for feeding stock. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. \$1.00.

DANVER'S HALF LONG. Grown largely on account of its great productivity and adaptability to all classes of soil. It is a desirable second early carrot for the home garden and is also suitable for field culture. The tops are of medium length, six to eight inches long, tapering uniformly to a blunt point. The flesh is deep orange, tender and of good quality. Although the roots of this variety at maturity are comparatively short, they often produce as large a bulk as the longer field sorts and are more easily harvested. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 90c.

LONG ORANGE. This is an enormous yielder, and on this account is very profitable to raise for feeding stock. It is especially desirable for its great milk producing qualities. Roots are of a rich orange color, fine grained and good for table use. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 90c.

CAULIFLOWER

EXTRA EARLY SNOWBALL. Very early, and one of the surest to make fine, large, solid heads. Its dwarf, compact habit of growth renders it one of the best for forcing under glass. Valuable for late planting as well as early. This variety is the standard among early cauliflowers and a favorite with market gardeners. Pkt. 10c, ¼ oz. 60c.

EXTRA EARLY ERFURT. A remarkably sureheading variety of dwarf habit, with short outside leaves. It makes medium sized heads pure white, exceptionally deep and of finest quality. It is excellent for the home garden and unsurpassed for market purposes. Pkt. 10c, ¼ oz. 60c.

DANISH GIANT. This is the popular dry weather variety, resembling Snowball somewhat, but grows larger, has more leaves and matures about two weeks later. It is especially valuable for high ground, as it is vigorous and stands dry weather better than other sorts. Pkt. 10c, ¼ oz. 60c.

CELERY

GOLDEN SELF-BLANCHING. Of dwarf compact habit, with thick, solid, heavily ribbed stalks, which blanch easily to a clear golden color. Crisp and stringless. A standard early variety. Pkt. 5c, oz. 25c, ¼ lb. 90c.

WHITE PLUME. This is a natural self-blanching variety, the inner leaves and stalks being white, it only requires the earth to be slightly drawn about it to be bleached to perfection. Pkt. 5c, oz. 25c, ¼ lb. 90c.

GIANT PASCAL. Stalk very large, thick, solid, crisp and of a rich, nutty flavor, free from any trace of bitterness. It blanches easily and quick, and retains its freshness a long time. Pkt. 5c, oz. 25c, ¼ lb. 90c.

CELERIAC or TURNIP-ROOTED CELERY. This produces a turnip shaped root, which may be cooked and sliced and used with vinegar, making a most excellent salad. Cultivate same as celery. Pkt. 5c, oz. 25c.

SWEET CORN

GOLDEN BANTAM. Of all varieties this is one of the most delicious, and is conceded to be the richest in flavor. Is extremely early, of hardy vigorous growth, so that it can be planted quite early. The stalks grow only about four feet high but they bear two or three good ears six to eight inches long, of handsome yellow color. In flavor it is quite distinct from the white sorts and some have called it as sweet as honey. Give it a trial. Pkt. 5c. $\frac{1}{4}$ lb. 10c, lb. 35c.

EARLY CORY. The earliest of all and the very best extra early sweet corn. Has a large ear, considering the size of the stalk, small cob well filled with broad grains that are very sweet and of fine quality. The most profitable of all varieties to grow for very early market. Pkt. 5c. $\frac{1}{4}$ lb. 10c, lb. 35c.

EARLY MINNESOTA. The old and deservedly popular standard early sweet corn. It is a great favorite with good size, sweet, and well flavored. Stalks grow about five

Golden Bantam Sweet Corn

market gardeners and canners. Eight-rowed ears of feet high. Pkt. 5c. $\frac{1}{4}$ lb. 10c, lb. 35c.

STOWELL'S EVERGREEN. The standard late variety. If planted at the same time with earlier kinds, will keep the table supplied till October. It is hardy and productive, very tender and sugary, remaining a long time in a fresh condition, suitable for boiling. Pkt. 5c. $\frac{1}{4}$ lb. 10c, lb. 35c.

COUNTRY GENTLEMAN. An unexcelled late variety with an exceedingly small cob, densely covered with irregular rows of very long and slender white grains of excellent quality. It is one of the richest flavored of all the late varieties. As a table corn this variety stands unrivaled, and without doubt is the most luscious of all varieties of sweet corn; the delicious flavor will delight an epicure. Ears are seven to nine inches long. Well adapted for canning; as well as the home garden and market, and by many is regarded as the best of the late varieties. Pkt. 5c. $\frac{1}{4}$ lb. 10c, lb. 35c.

Stowell's Evergreen Sweet Corn

CRESS

EXTRA CURLED. Extensively used as a small salad; the leaves while young have a warm pungent taste. Sow rather thick in shallow drills, at intervals. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c.

CUCUMBER

EARLY CYCLONE. This is one of the earliest cucumbers in cultivation and is of the most desirable white spine type. It is shorter and thicker, and holding its deep green color better than any white spine or other early cucumber in cultivation. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c.

KLONDIKE. A variety unexcelled for either pickling or slicing. It is truly an all purpose cucumber and deserves a thorough trial. It is a sure cropper, yields well and is one of the earliest varieties to begin bearing and continues to bear large quantities of the best quality throughout the summer. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. \$1.00.

EARLY WHITE SPINE. This is a favorite variety, producing fruit from six to eight inches in length, and two to three inches in diameter, of a handsome light green, flesh crisp and of fine flavor. Good for forcing and for out doors. As a general home and market variety it is unsurpassed. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. \$1.00.

DAVIS' PERFECT. This variety beats all others in points of beauty, quality and productiveness. It loads its vines so heavily that it seems impossible for them to mature the fruit. It is one of the very best varieties for forcing as well as for the open ground. It is excellent for pickles as it produces a great abundance of nice straight cucumbers of good color. No variety will be more appreciated for slicing. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. \$1.00.

CHICAGO PICKLE. Medium in size, dark green in color when young, matures early and produces an immense number of fine shaped pickles. This is considered the best all around variety for pickles. It is very prolific, a given area planted with this variety will produce more pickles than any other cucumber. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c.

Country Gentleman Sweet Corn

IMPROVED LONG GREEN. Produced by selection from the Long Green. Vines vigorous and productive, forming fruit fit for the table nearly as early as the shorter sorts; fruits about 12 inches long, firm and crisp. The young fruit makes one of the best of any for sweet pickles. This perhaps is more grown, and deservedly so, in the home garden than any other variety. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. \$1.00.

EGG PLANT

NEW YORK PURPLE. The best variety in cultivation. Plants large, vigorous, with light green leaves; fruit very large, oval, deep purple; flesh white, tender and of superior quality. We offer an entirely new strain of this well known and standard variety which is now universally grown by market gardeners and experienced home gardeners. Pkt. 5c, oz. 50c, $\frac{1}{4}$ lb. \$1.50.

EARLY
CYCLONE
CUCUMBER

Kohl Rabi.

Prize Head Lettuce.

London Flag Leek.

Endive

Green Curled. Finely curled, dark green

leaves, which blanch white and are tender and crisp by tying over the outer leaves. Not only useful as a salad, but much used for garnishing. As it is used mostly in the fall and winter months, they should be sown in June and July. Plant one foot apart each way. Pkt. 5c, oz. 10c.

HERBS Sweet, Pot, Culinary, and Medicinal

These are all sold at 5c. per Pkt., 15c. per Oz. **Anise.** Used for cordials, par-nishing and flavoring. **Balm.** The leaves are used for balm tea. **Caraway.** Seeds for flavoring; the oil prevents stomach griping. **Dill.** Used largely for pickling with cucumbers. **Sweet Fennel.** Leaves used in fish sauce; makes a splendid tea for colic. **Horehound.** For seasoning and for colds. **Lavender.** For seasoning and perfume. **Sweet Marjoram.** Highly esteemed for seasoning. **Rose-mary.** For seasoning and medicinal tea. **Sage.** For seasoning and dressing. **Savory.** Summer, an annual. Winter, a perennial. **Thyme.** Valuable for seasoning, and a tea for headaches. **Wormwood.** Contains tonic and stimulant prop-erties. A hardy perennial.

KOHL RABI

A vegetable intermediate between the turnip and cabbage, combining the flavor of both. The bulb-shaped growth is used when very small and tender, at which period they are delicious, properly prepared. Sow at treat similar to early cabbage.

White Vienna. Very early, forming a small, handsome white bulb. The best early table variety. Pkt. 5c, oz. 20c, ¼ lb. 75c.

LEEK

Broad London Flag. Large, with broad leaves growing on two sides like the flag. The stem is large, and of fine flavor. Pkt. 5c, oz. 15c, ¼ lb. 50c.

LETTUCE

May King. The best early-heading variety. The inner leaves are tightly folded, of good substance and a rich yellow color. It is hardy, early and a quick grower. It will produce solid heads ten days earlier than any other variety in the open ground. Pkt. 5c, oz. 10c, ¼ lb. 30c.

Improved Hanson. The best outdoor lettuce, has very little tendency to run to seed. The plant forms a large flat head, very solid, resembling a head of cabbage. It is light in color, crisp, tender and sweet. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. \$1.00.

Black-Seeded Simpson. A quick-growing, hardy variety, which can be used early. It is very tender and sweet while young. Color, clear light green with leaves very much crimped. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. \$1.00.

Improved Hanson Lettuce

Prize Head.

The edges of the outer leaves are of a glossy reddish bronze; the center is almost white, very crisp and tender. It grows very quickly, is ready to cut early, and lasts for weeks. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. \$1.00.

May King Lettuce.

Paul Rose Musk Melon.

Musk Melon

Nutmeg.

This is a very early melon, and on this account, as well as the uniform size it attains, it is a very profitable variety to grow for market. In shape it is round, medium in size, heavily netted, a capital shipper, and very productive. Pkt. 5c, oz 10c, ¼ lb. 30c, lb. 95c

Emerald Gem Musk Melon

Paul Rose. This melon is a cross between Osage and Netted Gem combining the sweetness of the former and the netting of the latter. It is a salmon-fleshed, small-sized melon, and surpasses all others as a shipper and a long keeper. It has thick flesh and small seed cavity, and so is bound to rank high as a market gardener's favorite. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. 95c.

Emerald Gem. One of the sweetest melons in cultivation; smooth skin, deeply ribbed; flesh a delicate light salmon color, very thick and fine grained. It is early and very prolific. On account of its superior qualities it is fine for home use. Pkt. 5c, oz. 10c, ¼ lb. 30c.

Hart's Victor. This is the grandest achievement in the Rocky Ford type of cantaloupes a cantaloupe without flaw or blemish, bred, perfected and tested, a thing of beauty. The coloring exquisite, blushing from a rich deep green to pale pink and again darkening into more pronounced pink in the center. Finely textured, thick meat, with an exceedingly small seed cavity, a good mesh and thick button. In fact a perfect cantaloupe; and best of all its flavor is sweet luscious, most tasty, delicious. Early maturing and a prolific bearer. Pkt. 5c, oz. 10c, ¼ lb. 35c, lb. \$1.20.

Water Melon

Fordhook Early

This is the earliest large-fruited melon in cultivation; the fruits are short and blocky in form, with large diameter. The skin is dark green, occasionally striped lighter green. The flesh is bright red, crisp, sweet and of splendid quality. Rind quite thin, but tough, making an excellent shipping variety. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 70c.

Tom Watson. This is a large, oblong melon, quite distinct from other varieties. The flesh is deep red, crisp, melting and of the finest flavor. It is a most excellent shipper and this feature added to its fine quality and handsome appearance makes it in every way valuable. Average weight is 35 lbs. Pkt. 5c, oz. 10c, ¼ lb. 25c.

Kleckley Sweets. Oblong in form, with dark green skin. Flesh bright scarlet, with solid heart, deliciously crisp, sugary and splendid in every way. An entirely distinct variety. It is early, large and handsome, a good keeper and shipper. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 70c.

Sweet Heart. A very desirable variety. Vine vigorous and productive. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 70c.

Klondike. The sweetest melon grown. Large, early and sweet; flesh a rich crimson, tender, brittle and melting. The rind is a rich, deep green, which when fully ripe cracks easily, hence is desirable for the home garden only. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 95c.

Citron. Standard everywhere for making preserves. Pkt. 5c, oz 10c, ¼ lb. 25c, lb. 70c.

Fordhook Early Watermelon.

Yellow Globe Danvers Onion

Red Wethersfield Onion

ONION

Large Red Wethersfield.

This is a standard variety and favorite onion. Large size, skin deep purplish red, form round, somewhat flattened, flesh purplish white, moderately fine grained, very productive and the best keeper. This variety is the most profitable to grow for market and shipping. Pkt. 5c, oz. 20c, ¼ lb. 60c, lb. \$2.25.

Yellow Globe Danvers.

This is a popular yellow onion, growing to a large size, a good keeper, and of pleasant flavor. My stock is exceedingly fine, and will compare favorably with any strain offered. Pkt. 5c, oz. 20c, ¼ lb. 60c, lb. \$2.25.

Mammoth Prizetaker.

Undoubtedly the largest, handsomest and most profitable onion grown. The outside skin is of a rich yellow color, while the flesh is white, mild and tender, and may be eaten raw as an apple. It often grows to the weight of three or four pounds. Pkt. 5c, oz. 25c, ¼ lb. 80c, lb. \$2.75.

Early White Queen.

A very early, very white skinned variety of especial value for pickling. Pkt. 5c, oz. 25c, ¼ lb. 80c, lb. \$2.75.

Parsnip

Fine Sugar.

Long white, smooth, and considered by all to be the best flavored parsnip grown. A favorite market variety. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. 95c.

Parsley

Double Curl-

ed. A compact growing, finely cut and much curled variety, of a bright green color. Owing to its fine color and density of foliage it is much sought after for both the market and the home garden. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 90c.

Ruby King Pepper

Pepper

Golden Dawn

Very productive, golden-yellow color, excellent quality, and mild flavor. This is a much grown, valuable sort. Pkt. 5c, oz. 50c.

Ruby King.

Grows to a large size, bright ruby red color, and remarkably mild and pleasant to the taste. This is a beautiful variety. Pkt. 5c, oz. 50c.

Long Red

Cayenne.

Long slim pod, red, very strong and pungent. Pkt. 5c, oz. 50c.

Order Seeds Early--
Avoid the Rush

PUMPKIN

Tennessee Sweet Potato.

Unsurpassed for pies; hardy and productive. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. 95c.

Connecticut Field.

Valuable for stock; very productive, yielding immense quantities of excellent feed. Pkt. 5c, oz. 7c, ¼ lb. 20c, lb. 60c.

King of the Mammoths.

An immense, handsome pumpkin, of a beautiful dark yellow color; flesh very thick and of excellent quality

Double Curled Parsley

for pies or for feeding stock; a very profitable pumpkin to grow on account of its size. Pkt. 5c, oz. 10c, ¼ lb. 40c.

Winter Lux-

ury. A splendid pie pumpkin, with thick flesh of a very fine quality, and they keep well into the winter. A very fine pumpkin for home use or market. It deserves a trial. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. 95c.

Fine Sugar Parsnip

Everbearing Pea

Extra Early Pea

Surprise Pea

PEAS

Surprise.

A new pea well named—the earliest of all wrinkled peas. The pods are good sized and well filled. The peas are very tender and sweet, retaining their fine flavor

even when fully developed. This pea is a cross of Alaska and American Wonder. It possesses the quality of the latter. The vines grow 24 inches high, but need no support. This is a valuable variety and deserves an extensive trial. Pkt. 5c, 1/4 lb. 10c, lb. 35c.

Extra Early.

This is unsurpassed as an early variety, and is unequaled for general excellence. It is a standard pea with truckers and gardeners who know the importance of being first in the market with new peas. It is a round, smooth variety, remarkable for its quick maturity. It is usually ready for market in 45 days from planting. Height 20 inches, requires no support. Pkt. 5c, 1/4 lb. 10c, lb. 35c.

Alaska.

This is an extremely hardy early variety, that can, on this account, be planted earlier than any other sort. It is grown much by market gardeners and canners on account of its earliness and uniformity of crop. It has strong healthy vines 15 inches high, which needs no support. Seed round, bluish-green, slightly pitted. Pkt. 5c, 1/4 lb. 10c, lb. 35c.

Nott's Excelsior.

This grows 15 inches high, and is one of the best wrinkled varieties in cultivation. It is ready for use in about 48 days from planting. The peas are tender and of a most delicious flavor. The pods are large, numerous and well filled. The most popular dwarf pea grown. Pkt. 5c, 1/4 lb. 10c, lb. 35c.

Everbearing.

A prolific wrinkled variety, growing 18 to 24 inches high, and bear in great profusion large pods 3 to 4 inches long and containing 6 to 8 large peas. It is very popular for the family garden. If the pods are picked as they mature and the season and soil are favorable, the plant will throw out branches bearing pods which will mature in succession, thus prolonging the season. The peas are large and wrinkled, cook very quickly, are tender of superior flavor and preferred by many to any other sort. Pkt. 5c, 1/4 lb. 10c, lb. 35c.

Dwarf Melting Sugar.

This variety has edible pods. This belongs to a class of peas not generally known in this country but much used abroad, in which the sweet, brittle and succulent pods have none of the tough, inner lining found in the ordinary varieties of garden peas. They are used in the same way as snap or string beans. The best of these edible podded sorts is the Dwarf Melting Sugar, with large pods, which, while young, are stringless, very tender and finely flavored. The variety is very prolific, strong, growing about three feet high with large light colored foliage. Seed medium to large, smooth, round, light brown in color. The perfect sugar pea. If you have never tried this pea you should include it in your order for seeds. Pkt. 5c, 1/4 lb. 10c, lb. 35c.

Alaska Pea

Nott's Excelsior Pea

Platte Valley Peerless Seeds Please Planters

RADISH

Rosy Gem. This is one of the earliest and the handsomest of the turnip shaped radishes in cultivation. It is a great favorite with market gardeners on account of its beautiful appearance when bunched. It is the most profitable to grow for market, owing to its earliness, its attractive appearance and superior quality. It is easily forced under glass, and remains crisp and tender for a remarkably long time. The roots are nearly round, slightly flattened on the underside. Color very deep scarlet with a distinctly white tip. The scarlet is very pronounced, which, with the pure white bottom affords a pleasing contrast. Pkt. 5c. oz. 10c, ¼ lb. 25c, lb. 90c.

Champion. This is the best and earliest round or turnip-shaped radish for forcing or open ground. It grows as round as a ball, with very short leaves and is of a deep scarlet color. It grows with great rapidity, often getting large enough to pull in 18 days from sowing the seed. This radish is very popular for forcing and open ground culture. Pkt. 5c. oz. 10c, ¼ lb. 25c, lb. 90c.

French Breakfast. Extremely early. A medium sized radish, olive shaped, small top, of quick growth, very crisp and tender. Of a beautiful scarlet color except near the tip, which is pure white. A splendid variety for the table on account of its excellent quality and its beautiful color. Pkt. 5c. oz. 10c, ¼ lb. 25c, lb. 90c.

New Icicle. A very fine new white variety and the earliest of the long snowy white sorts yet produced. It has but small tops, making it very desirable for forcing. The roots continue brittle, mild and crisp, until full grown. They have a peculiar and delicious freshness not to be found in the other sorts. Very rapid growing, tender with a delicate, fine grain. Pkt. 5c. oz. 10c, ¼ lb. 25c, lb. 90c.

Chartier. This variety is one of the best for sowing for the table very early and continue crisp until they reach a diameter of about an inch and a quarter, thus affording good roots for a long time. The roots are long, cylindrical, scarlet rose in color, and gradually taper and shade into white at the tip. Pkt. 5c. oz. 10c, ¼ lb. 25c, lb. 90c.

Black Spanish Winter. One of the latest as well as the hardest of radishes, an excellent sort for winter use. Roots of medium size, oblong, black, flesh white and of firm texture. It is the best of all winter radishes. Pkt. 5c. oz. 10c, ¼ lb. 25c, lb. 90c.

Salsify or Vegetable Oyster Plant

Mammoth Sandwich Island. An extra large variety, growing much larger than the old variety. The roots, notwithstanding their large size, are of very superior quality and delicate flavor. This variety, where known, is entirely superseding the old type, as it produces roots, nearly double the size and weight. Pkt. 5c. oz. 15c, ¼ lb. 50c, lb. \$1.75.

New Icicle Radish.

SPINACH

Long Season. This variety stands longer without running to seed than any other kind. The leaves are very thick and dark green—much deeper in color than other kinds. The plants resemble the Savoy Leaf in appearance, but are darker green, and stand much longer. This is a very fine variety and we highly recommend it for both market and home garden. Those who have had spinach run up to seed just as it got large enough to use will appreciate this lasting kind, which will stand much longer than any other variety, and give nice fresh greens long after other kinds have become useless. Pkt. 5c. oz. 10c. $\frac{1}{4}$ lb. 25c. lb. 80c.

Victoria. The great value of this variety is its habit of remaining a long time in good edible condition without going to seed. It is especially valuable on this account for spring sowing. The leaves are round, thick, broad, dark green and somewhat curled, and are of the best quality. A faster grower than Long Season and can be used earlier, but does not stand so long without running to seed. It is quite hardy and can be sown in the fall for spring use. Pkt. 5c. oz. 10c. $\frac{1}{4}$ lb. 25c. lb. 80c.

New Zealand Spinach. This is not a true spinach, but a plant that can be used for the same purpose. Produces an abundance of leaves on stems a foot or more in length. Will grow during hot dry weather when other spinach would be useless, continuing to furnish nice "greens" all summer and fall. The leaves and stems are tender and of excellent flavor. Soak seed in warm water twelve hours before sowing, as it is difficult to get it to germinate. Sow the seed in May, in rows two feet apart. Pkt. 5c. oz. 10c. $\frac{1}{4}$ lb. 25c. lb. 90c.

SQUASH

Burpee's Fordhook. The vines are of strong vigorous growth and wonderfully productive. Fruits oblong in form eight to ten inches in length slightly ridged, smooth thin yellowish skin; flesh very thick and of a light straw-yellow. If gathered young for cooking, no other squash approaches it in flavor, while if allowed to ripen on the vine they can be stored and will keep in excellent condition until late the following June. Either for baking like sweet potatoes or making pies during the winter the quality is unsurpassed. Pkt. 5c. oz. 10c. $\frac{1}{4}$ lb. 35c.

Delicious. This is the finest flavored squash we know of. It is so dry and fine grained that it resembles a good sweet potato more than ordinary squash. The fruit is not as large as Hubbard, but it is very heavy, and is of far better quality than that variety, being dryer, richer and sweeter. Pkt. 5c. oz. 10c. $\frac{1}{4}$ lb. 35c.

Hubbard. This is an old favorite, and is the standard winter squash; grown perhaps more generally than any other variety. Flesh bright orange yellow, fine grained, very dry and sweet flavored. Boils or bakes exceedingly dry, and is esteemed by many to be as good baked as the sweet potato. Keeps perfectly good throughout the winter. This is pre-eminently a market gardeners squash, and in many sections it is grown to the exclusion of all other varieties. Pkt. 5c. oz. 10c. $\frac{1}{4}$ lb. 35c.

Sibley. This squash is of western origination and is claimed to be a great improvement on the Hubbard and no doubt is. The flesh is solid and thick and of vivid orange color, is dry and has a rich delicate flavor peculiarly its own. It is more productive and is a better keeper than either Marblehead or Hubbard. A fine baking variety, and desirable for all purposes. Pkt. 5c. oz. 10c. $\frac{1}{4}$ lb. 35c.

BURPEE'S

New FORDHOOK SQUASH

ENGRAVED FROM A PHOTOGRAPH AND COPYRIGHTED 1900 BY W. ATLEE BURPEE & CO.

A. C. ANDERSON,
Columbus, Neb.

Tomato

Dwarf Champion Tomato

The most profitable tomato to grow on account of its earliness. Pkt. 5c, oz. 25c, $\frac{1}{4}$ lb. \$1.00.

Matchless. This is the best large fruited standard bright red tomato. Fruits large, very smooth and symmetrical, ripening well to stem. Flesh rich, bright red in color and of fine quality. Much grown for canning purposes on account of the attractive color of its meat. Pkt. 4c, oz. 25c, $\frac{1}{4}$ lb. 75c, lb. \$2.50.

Dwarf Champion. This is the best of the so called tree tomatoes. It is very popular on account of its stiff, upright and vigorous growth; which keeps the fruit well above the soil without any support whatever. The color of the fruit is a rich, purplish pink, of medium size, smooth and symmetrical. It is one of the earliest and most profitable tomatoes to grow. It is unsurpassed in quality very productive and valuable for the home or market. Being of compact growth it can be planted closer than the vining varieties. Pkt. 4c, oz. 25c, $\frac{1}{4}$ lb. 75c, lb. \$2.50.

Ponderosa. A gigantic variety, the tomatoes often weighing two or three pounds each. Of a rich, bright crimson color and all solid meat, exceptionally free from seeds. Extremely delicious in flavor, whether used raw or cooked. A single tomato is enough for a meal. Very desirable for family and market purposes. Produces fruits continuously until frost. Pkt. 5c, oz. 35c, $\frac{1}{4}$ lb. 95c, lb. \$3.50.

The Stone. The greatest canning tomato in the world. The largest, bright red, perfectly smooth, highest yielding best keeping, finest flavored main crop variety in existence. It is unequaled as a table variety, being of a superior quality. It is a famous main crop tomato in many sections, both north and south, and is much used for canning. The plants are productive and the fruit bears shipment well. Its shape, color, and quality adapts it to the fancy market trade. Pkt. 4c, oz. 25c, $\frac{1}{4}$ lb. 75c.

Earliana Tomato

Matchless Tomato

Golden Queen.

"Queen of all the Yellows." Its superior flavor has brought it into general favor as a table fruit. It is solid, always smooth, entirely free from cracks or ridges, large in size, ripens early. The larger and riper fruits are sometimes tinged with red. Pkt. 5c, oz. 25c, $\frac{1}{4}$ lb. 75c.

Tobacco

The importance of this crop in many sections makes the use of the very best seed an urgent necessity. We feel safe in stating that the quality of the seed we offer is absolutely unsurpassed.

White Burley.

A mild and sweet tobacco. It is the standard main crop variety in the tobacco sections as it is extra fine for manufacturing in nearly every manner that tobacco is used. Pkt 5c oz. 30c, $\frac{1}{4}$ lb. 90c.

Turnip and Ruta Baga

Early Purple Top Milan. One of the earliest, and the finest for table use. Of quick growth. Pkt. 4c, oz. 10c, $\frac{1}{4}$ lb. 35c, lb. \$1.25.

Tammoth Purple Top. An excellent large variety; productive yielding enormous crops. Pkt. 3c, oz. 9c, $\frac{1}{4}$ lb. 25c, lb. 95c.

Purple Top Yellow Ruta Baga. Fine large variety; fine quality and a great yielder. Pkt. 3c, oz. 9c, $\frac{1}{4}$ lb. 25c, lb. 95c.

The Stone

Tomato

Early Purple Top Milan

Selected Field Seeds

We take pleasure in offering a selected list of Farm Seeds. You will find our seeds pure, clean and of the highest possible quality.

Prices. Owing to the unsettled condition of the field seed market our prices are subject to fluctuation, but we will always fill orders at the lowest price prevailing when the order is received.

Shipping. Packets and pounds are sent by mail, postpaid, at prices quoted. Larger quantities are shipped by express or freight, charges to be paid by purchaser. No charge for bags, boxes or packing.

Feterita

This is unusually well adapted for dry soils, being a native of the arid regions of Egypt and belongs to the same class as kaffir and milo. It produces a strong stalk of medium height and a well filled head of white seeds. It is a great drought resister and will produce a crop where other forage plants would prove a failure. All stock relish the fodder and are especially fond of the grain, which is also recommended as a feed for chickens. It matures two weeks earlier than kaffir corn, this making it possible to grow it successfully farther North. It is an abundant yielder, producing from thirty to fifty bushels to the acre. **Oz. 5c, 1/4 lb. 10c, 1 lb. 30c, 1 lbs. \$1.00, by mail. 25 lbs. \$1.50, 100 lbs. \$5.00, by freight.**

Kaffir Corn

An excellent fodder plant for the farmer. The heads are long and perfectly erect, well filled with white grain. The average height of growth on good strong land is five to six feet. The seed heads grow from ten to twelve inches in length, and the produce of grain on good land easily reaches fifty to sixty bushels per acre. The whole stalk, as well as the blades cur's into excellent fodder. Can be sown broadcast at the rate of thirty pounds per acre, but does best sown in drills three feet apart, using five to six pounds of seed per acre. Cover seed an inch deep, sow when weather is mild and ground is warm. **Oz. 5c, 1/4 lb. 10c, 1 lb. 30c, 1 lbs. \$1.00, by mail. 25 lbs. \$1.25, 100 lbs. \$4.00, by express or freight.**

Sudan Grass

This is the unique forage plant, a native of Sudan, Africa, adapted to a dry climate, but is fine in any climate. While it revels in a rich soil it will also produce a fine crop on soil that ordinarily will not grow weeds. Sudan Grass as an annual somewhat resembling cane, though rarely thicker than a lead pencil. The plants stool wonderfully and produces under favorable conditions as many as 100 stalks from a single root. It makes a first-class hay, all stock relish and thrive on it, the quality is superior to millet. Yields from two to four tons per acre are common and under favorable conditions, six to eight tons have been grown. Sow when the soil becomes warm in rows 18 to 35 inches apart and cultivate, or can be drilled with a grain drill or sown broadcast by hand. Seeded in rows, it takes from 3 to 6 pounds per acre, depending on the width of row; drilled or broadcast, from 12 to 15 pounds are used, for hay it is best to cut just after full bloom; that will give it more time for a second growth, and in 30 to 50 days another cutting is ready. Ordinarily two to three cuttings may be expected when the season is long enough. **Oz. 5c, 1/4 lb. 10c, 1 lb. 30c, 1 lbs. \$1.00, by mail. 25 lbs. \$3.00, 100 lbs. \$10.00, by express or freight.**

Fodder Cane--Sorghum

One of our most valuable fodder plants. It is desirable as a pasture crop during the summer season, and it will furnish an enormous quantity of rich forage for winter use. It is especially valuable for dairy farming on account of its excellent milk producing qualities. It makes excellent pasture for hogs, is relished by sheep and cattle, and poultry thrive on the seeds. Cane can be cut two or three times during summer if cut before heads out, and in that way it makes fine hay. The varieties used for fodder grow slender stalks that are easily cured. Sow 75 pounds per acre broadcast; 15 pounds if drilled. **Oz. 5c, 1/4 lb. 10c, 1 lb. 20c, 8 lbs. \$1.00, by mail. 25 lbs. \$1.25, 100 lbs. \$3.50, by express or freight.**

Amber Syrup Cane

This is the earliest and best cane for producing syrup. It grows and matures farther North than any other variety, and produces the finest quality of rich, clear amber syrup. Plant about one planting time in hills or drills, covering the seed about one inch deep. The highest and thinnest soil will produce the sweetest and clearest syrup. **Oz. 5c, 1/4 lb. 10c, 1 lb. 25c, 5 lbs. \$1.00, by mail. 25 lbs. \$2.00, 100 lbs. \$5.00, by express or freight.**

Cow Peas

This is a great soil improver, making poor land rich and good land more productive. Plowed under green they are a wonderful fertilizer. Sow in May or June, 90 pounds to the acre, and plow under when fully grown. If sown for fodder broadcast it will take 60 pounds per acre. It is a good idea of mixing one-fourth kaffir corn with this crop when grown for fodder, as it holds the vines off the ground, causing a better growth.

WHIPPOWILL. This makes a heavy growth of vine and is a prolific producer of seed. It is a medium early sort, and probably the best general purpose variety grown. **Oz. 5c, 1/4 lb. 10c, 1 lb. 25c, 3 lbs. 60c, by mail. 50 lbs. \$5.00, 100 lbs. \$8.00, by express or freight.**

NEW ERA. The earliest variety and the best for growing in the northern states, it has matured in 60 days and has done well as far north as Minnesota. Particularly recommended for planting after grain harvest and plowing under in fall. Every farmer can use them profitably. They are upright-growing, have small vine which cures easily, making splendid dry forage. **Oz. 5c, 1/4 lb. 10c, 1 lb. 25c, 3 lbs 60c, by mail. 50 lbs. \$5.00, 100 lbs \$8.00, by express or freight.**

Soy Beans

This exceedingly valuable legume deserves decided attention. It is an ideal crop for turning under green to improve worn out soils and fertilizes the soil where grown like clover will. It is also valuable for pasture or hay for all kinds of stock. Will mature in all parts of the corn belt, sometimes growing four feet high, heavily podded with seed, yielding twenty to thirty bushels per acre. The ground beans are equal to oil meal or cotton seed meal in feeding value. The hay is best to feed in conjunction with with corn fodder to reduce its excess of protein. It should be cut before the stems become woody. Seed can be planted after corn planting time, and may be sown broadcast at the rate of thirty pounds per acre or in drills thirty inches apart.

MEDIUM YELLOW. This matures early and is the best all around variety. **Oz. 5c, 1/4 lb. 10c, 1 lb. 25c, 3 lbs. 60c, by mail. 50 lbs. \$7.50, 100 lbs. \$10.00, by express or freight.**

Japanese Buckwheat

This produces strong stalks which branch freely and stand up well. On account of its branching habit, it does not require as much seed to sow an acre as of the common kind. The kernels are very large, it makes excellent flour and has practically displaced all other sorts for bees. **Lb. 25c, 3 lbs. 60c, by mail. 50 lbs. \$2.75, 100 lbs. \$5.00, by express or freight.**

Dwarf Essex Rape

This has long, loose leaves, somewhat resembling cabbage. It is great hog feed, especially valuable for young stock. When eaten off it continues to sprout up from near the ground. **Oz. 5c, 1/4 lb. 10c, 1 lb. 25c, 5 lbs. \$1.00, by mail. 50 lbs. \$5.00, by express or freight.**

Field Seeds--Continued

Prices quoted are subject to market fluctuations

Canada Field Peas

Very valuable for cattle feeding, and excellent for horses and pigs when sown with oats. When grown in this manner they will be found especially valuable for milk cows, as they contain the best milk producing properties. They are perfectly hardy and do well on any soil adapted to oats or spring wheat. Sow broadcast, 75 pounds with oats, 120 pounds if alone, and harrow in. As a fertilizer they come next to clover, to be plowed under when they commence to blossom; they will grow on land that will not produce clover. 15 lbs. \$1.50, 50 lbs. \$4.50, 100 lbs. \$8.00.

Mammoth Virginia Peanuts

The largest, sweetest and heaviest yielding variety, and is more desirable than the common spreading kind because more easily cultivated. Every boy and girl can grow their own peanuts almost anywhere in this country. Plant about corn planting time in deep mellow soil and cultivate thoroughly throughout the season. Pkt. 5c, oz. 10c, 1/4 lb. 20c, lb. 50c, by mail.

Russian Sunflower

This is the mammoth sunflower so much prized by poultry keepers. It is the best egg producing food known, poultry will eat it greedily, it keeps them in fine condition and they fatten well on it. It is a splendid food for all farm animals, being relished by horses, cattle, sheep and swine. It is also being planted in low ground and around drains as a preventative of malarial fevers. It can be planted on any waste piece of ground from first of May to first of June, planting in hills three feet apart each way. It takes four pounds of seed to plant one acre. Oz. 5c, 1/4 lb. 10c, lb. 25c, by mail. 10 lbs \$1.25, by express.

Evergreen Broom Corn

This is one of the best for general culture, ripens early; grows 8 to 9 feet high, finest brush, never crooked, good length. Plant in hills 18 inches apart in the rows and the rows 3 feet apart. Requires similar land and later planting than corn. Lb. 20c, 3 lbs. 50c.

Spring Vetch

Undoubtedly this is the king of soil builders and a most nutritious forage plant, making splendid hay for cattle and other stock. The spring vetch is unsurpassed for plowing under and it has the advantage over peas in that it makes a greater growth of vine and the seed being smaller, a less quantity is required to plant an acre. Sow early in the spring at the rate of 20 pounds per acre, broadcast, with 30 pounds of rye or barley to furnish support for the vines. Lb. 20c, 7 lbs. \$1.00, by mail. 12 lbs. \$1.25, 50 lbs. \$5.00, by express or freight.

Millet

The millets deserve universal recognition as forage plants and are especially valuable where the rain fall is somewhat sparse, as they will produce a crop where other grasses would prove an entire failure. They rank high in feeding value and stock thrive well on them. Millet is best in a rich soil and should have the seed bed well prepared. Sow in May and June to produce a crop of seed, for hay it may be sown as late as July 20th.

GOLDEN MILLET. Medium early, will grow in any climate or soil; the yield in hay or seed is large. Grows from four to six feet high; seeds golden yellow. 25 pounds will sow an acre. Lb. 20c, 4 lbs. 60c, by mail. 50 lbs. \$2.50, by express or freight.

JAPANESE MILLET. An enthusiast has named this the "billion dollar grass," and it is well worth the application. It has proven an enormous yielder in all parts of the country. It is entirely distinct from any other. It will grow from 6 to 8 feet high and yield 12 to 15 tons per acre. Cattle and horses eat it greedily, fed green or cured as hay. Sow broadcast 12 pounds or in drills 3 pounds per acre. Lb. 25c, 4 lbs. 80c, by mail. 50 lbs. \$1.00, by express or freight.

SIBERIAN MILLET. An early variety from Russia, wonderfully productive, the hay is finer than of other varieties, stalks more elastic and growing about four feet high. It is rust proof and being of stooling habit requires less seed. Lb. 20c, 4 lbs. 60c, by mail. 50 lbs. \$3.50, by express or freight.

Choice Seed Corn

PRIDE OF THE NORTH. This is the earliest yellow dent born in cultivation, having matured in 85 days from the time of planting. Kernels closely set, large, of deep orange color; cob very small and red. This is, probably, the best dent corn for general cultivation in the north, and is now largely used in the south and west, as it matures its crop before the hot winds affect it. This corn is not fully appreciated until the large yield and small percentage of cob is carefully considered. Oz. 5c, 1/4 lb. 10c, lb. 25c, by mail. 25 lbs. \$2.00, 50 lbs. \$3.50 100 lbs. \$6.50, by express or freight.

RED'S YELLOW DENT. One of the most generally grown varieties and a prime favorite with the farmers in the corn belt. It is large, smooth, symmetrical ears, of unusually uniform size, making it attractive to sell in the ear. The ears average about ten inches in length, have 18 to 24 rows, deep grain with small cob, well filled at butt and tip; slightly rough, with grain dented on top. Leaves and stalks makes the finest ensilage and fodder. Oz. 5c, 1/4 lb. 10c, lb. 25c, by mail. 25 lbs. \$2.00, 50 lbs. \$3.50, by express or freight.

IOWA GOLD MINE. Not a large corn, but the best thing we know of for medium early; it is a great producer and sure cropper. The ears are of medium size, bright golden yellow, with deep grain and small cob. This variety will grow in nearly every state in the Union, and is especially recommended for the western corn belt. All throughout the Eastern States, where the climate does not demand an extra early variety, it is very popular. Has been tried all over the South with nothing but the best results. Oz. 5c, 1/4 lb. 10c, lb. 25c, by mail. 25 lbs. \$2.00, 50 lbs. \$3.50, by express or freight.

IOWA SILVER MINE. This valuable corn matures in 100 days, is deep grained, pure white, rough-topped, with a small white cob. Ears run from 9 to 12 inches long, 16 to 20 rows of pure white kernels, solidly set on ears well filled out at butt and tip. This corn is a drought resister, maturing in not climates where early droughts are frequent. Stalks medium height, very leafy, with broad blades, frequently bearing two ears weighing 1 to 1 1/4 pounds each. This corn will overcome many adverse conditions, will pull through and make a crop where other varieties fail. Oz. 5c, 1/4 lb. 10c, lb. 25c, by mail. 25 lbs. \$2.00, 50 lbs. \$3.50, by express or freight.

MAMMOTH WHITE. This big early white corn has many strong points, being a vigorous grower, maturing remarkably early for a large sort, free from barren stalks; stands hot weather and drought. The ears are large, pure white, well filled out at butt and tip, small stem, 16 to 20 rows of deep, wedge-shaped kernels, full of starch and oil. Ears 8 to 12 inches long and 7 to 8 inches in circumference. Best for yield and early maturity. In ordinary seasons it will mature in 100 days. Oz. 5c, 1/4 lb. 10c, lb. 25c, by mail. 25 lbs. \$2.00, 50 lbs. \$3.50, by freight.

Onion Sets

Red, White and Yellow

To grow early onions for bunching plant onion sets, they are one of the most profitable items a market gardener can grow for which there is always a ready sale. Plant very early in rich soil. Four pounds of sets will plant a square rod. In case you cannot dispose of all for bunching those left in the ground will make large onions later and may be disposed of when matured. We have red, white and yellow sets, please designate which kind you want when you order. Lb. 25c, 3 lbs. 60c, by mail. 10 lbs. \$1.50, 20 lbs. \$2.75, by express or freight.

Pop Corn

It pays to raise pop corn as a general crop. The demand usually exceeds the supply. Some farmers claim it is as easily grown as field corn and they receive three or four times the amount per acre for the crop. Let the children try a patch.

AUSTRALIAN HULLLESS. Dwarf growing and a heavy yielder. Most tender and delicious flavor when popped, without any hard particles, melts in your mouth. Oz. 5c, 1/4 lb. 15c, lb. 50c, by mail.

MONARCH WHITE RICE. The best white variety grown. It bears from three to six ears per stalk. Always brings the best price in the market. The grains are sharply pointed, ear handsome. Oz. 5c, 1/4 lb 10c, lb. 30c.

SUPERIOR GRASS SEEDS

ALFALFA and CLOVERS

Our line of grass, clover and alfalfa seeds will be found high class in every respect. We solicit your orders believing we can furnish a superior grade in this line that will give universal satisfaction. Prices include sacks. Purchaser pays all transportation charges on quantities of 10 pounds and upwards.

Prices of seeds named on this page are subject to market fluctuations. We always give the lowest price.

Superior Alfalfa Seed

Platte Valley Brand. The best grade obtainable; seed you can bank on.
Prices: $\frac{1}{4}$ lb. 15c, lb. 50c, 10 lbs. \$2.60, 50 lbs. \$13.00, 100 lbs. \$24.00.

Loup Valley Brand. A selection of very choice and dependable seed.
Prices: $\frac{1}{4}$ lb. 15c, lb. 40c, 10 lbs. \$2.50, 50 lbs. \$12.00, 100 lbs. \$23.00.

Superior Clover Seeds

Medium or Common Red. Fancy select grade seed of highest quality.
Prices: $\frac{1}{4}$ lb. 15c, lb. 40c, 10 lbs. \$2.60, 50 lbs. \$13.00, 100 lbs. \$24.00.

Mammoth Red. A great yielder; especially desirable for plowing under.
Prices: $\frac{1}{4}$ lb. 15c, lb. 50c, 10 lbs. \$2.85, 50 lbs. \$14.00, 100 lbs. \$26.00.

Alsike or Swedish Clover. Extremely hardy and a wonderful producer.
Prices: $\frac{1}{4}$ lb. 15c, lb. 50c, 10 lbs. \$3.25, 50 lbs. \$16.00, 100 lbs. \$31.00.

White Dutch. Best adapted to moist soils, but will thrive on any land.
Prices: $\frac{1}{4}$ lb. 25c, lb. 80c, 10 lbs. \$7.50, 50 lbs. \$32.00, 100 lbs. \$63.00.

White-blooming Sweet Clover. The great forage and pasture plant.
Prices: $\frac{1}{4}$ lb. 15c, lb. 40c, 10 lbs. \$2.85, 50 lbs. \$10.00, 100 lbs. \$18.00.

Kentucky Blue Grass

Very desirable for pasture and lawns, is extremely hardy and very tenacious.
Prices: $\frac{1}{4}$ lb. 15c, lb. 40c, 10 lbs. \$3.50, 50 lbs. \$17.00, 100 lbs. \$32.00.

Superior Timothy

This grass is used exclusively for hay and does well on most any soil.
Prices: $\frac{1}{2}$ lb. 15c, lb. 20c, 10 lbs. \$1.20, 50 lbs. \$5.50, 100 lbs. \$10.00.

Superior Red Top

This is valuable either for mixing in hay or permanent pasture grass.
Prices: $\frac{1}{2}$ lb. 20c, lb. 30c, 10 lbs. \$2.25, 50 lbs. \$10.00, for hulled seed.

Orchard Grass

This is a hardy, vigorous grower and does as well in shade as in sunshine.
Prices: $\frac{1}{2}$ lb. 20c, lb. 35c, 10 lbs. \$3.00, 50 lbs. \$13.00, 100 lbs. \$25.00.

Bromus Inermis

A valuable grass for semi-arid regions, being a wonderful drouth resister.
Prices: $\frac{1}{2}$ lb. 25c, lb. 40c, 10 lbs. \$3.00, 50 lbs. \$15.00, 100 lbs. \$28.00.

Perennial Rye Grass

This is considered fine for hay and is invaluable for permanent pasture.
Prices: lb. 20c, 10 lbs. \$1.70, 50 lbs. \$8.00, 100 lbs. \$15.00.

IMPORTANT! Customers will observe that prices quoted on field and grass seeds are subject to market changes, if there is an advance we will ship amount of seed the remittance will pay for and if any decline we will refund the difference. This is the only way we can accept orders for these seeds.

Choice Flower Seeds

My Flower Seeds are fresh and of the best possible quality. I think I can please you in flower seeds, since I have spared no pains to secure the very best obtainable. Seeds and plants may be ordered together, but the plant part of the order must not be less than 25c. EXPLANATION OF ABBREVIATIONS. a, annual; b, biennial; p, perennial; h, hardy; h h, half hardy; t, tender; g, greenhouse.

Anchusa.

bery or in shady corners of the garden.

Abutilon

These are rapid growing stately plants, with pretty maple-like foliage and elegant bell-shaped flowers. Fine for the garden or for house culture. t p. 8c.

Abutilon.

Acacia

Elegant half-hardy shrubs, having fine ornamental foliage and beautiful racemes of yellow flowers. Soak seed in warm water for 24 hours before sowing. p. 5c.

Aconitum

A hardy perennial with curiouslyly formed flowers of various colors. Does well in any good garden soil, and is desirable for planting among shrubbery or in shady corners of the garden. It grows about three feet high. 5c.

ACROCLINIUM

A pretty annual everlasting bearing lovely white and rosy pink flowers, which, when cut in the bud state, can be dried and used in winter bouquets, 5c.

AGAPANthus

This is the beautiful blue African Lily. It is a robust growing bulbous-rooted plant, especially desirable for growing in tubs; bears large umbels of blue flowers that last a long time, g p. 8c.

AGERATUM

This is a very desirable bedding plant, blooming continuously from early summer till frost. It has beautiful blue and white flowers that look like silken floss and is not affected by rain, nor will the colors fade out. By sowing in September you can have plants for winter blooming. Choice varieties in fine mixture, 5c.

Agapanthus.

ALYSSUM

Fine plants for edging, beds or vases, blooming profusely all summer. Very sweetly scented.

Little Gem. Of fine dwarf, compact habit, growing about 4 inches high. The plants are a solid mass of white all summer. 5c.

Maritimum. White flowering, trailing variety; fine for baskets and vases. 5c.

ANCHUSA

Capensis. A hardy annual growing about 2 feet high, branching freely and bearing a profusion of the most lovely flowers, similar in all respects to the Forget-me-not, though much larger. 5c.

ANTIRRHINUM (Snapdragon)

One of the most desirable plants for cut flowers and bedding. They are easily grown. h h p.

- Alpha. A lovely giant white sort. 5c.
- Aurora. Scarlet, white throat. 5c.
- Daphne. Carmine and white. 5c.
- Freya. Soft pink, very fine. 4c.
- Ruby. Brilliant red, very fine. 5c.
- Venus. Pink on white ground. 5c.
- Victoria. Very large white. 5c.
- Mixed. Fine varieties in mixture. 5c.

Alyssum Little Gem!

Antirrhinum Alpha.

Aquilegia

This is commonly called Columbine. It has curiously shaped flowers, extremely graceful, and borne in great quantities high above the foliage, which itself is very beautiful and attractive. Fine for cutting. 1 p. Double and single mixed. 5c.

Aquilegia.

ARCTOTIS GRANDIS

The African Lilac Daisy, a free blooming annual, forming bushy plants which are covered with large flowers on long stems, the ray petals are pure white on the upper surface, reverse of petals pale lilac, a charming combination of colors. Grow in light rich soil. 5c.

Arctotis Grandis.

Aster

Few plants are as highly prized as these, the great variety of colors and easy culture makes them universal favorites. 1 p.

Snow ball.

A fine dwarf white variety of very free flowering habit. Much prized on account of the beautiful shape of the snow-white flowers. 5c.

Crego's Giant White.

as any chrysanthemum, and when cut is a wonderful keeper. Grows two feet high, well branched. 5c.

Crego's Giant Pink.

Identical in all respects to the white variety, but of a beautiful soft pink shade that is always admired, and which combines perfectly with the white. You will make no mistake in planting Crego's Giant Asters. 5c.

Vick's Branching.

This superb strain is especially adapted to our climatic conditions and is one of the best varieties for cut flowers very floriferous.

White. Lavender.

Crimson. Pink.

Purple. Mixed.

Price each. Per packet. 5c.

Cornet.

We offer an improved giant strain of this beautiful aster; the flowers not only are much larger, but the petals are longer. 5c.

Mikado.

Petals are very long and gracefully reflexed. The outer petals show to their full extent, while gradually toward the center they bend and curl each other in such magnificent disorder as to make it the flattest aster seen. 5c.

Fire King.

A dwarf sort, covered with beautifully shaped flowers of the brightest scarlet. Very effective. 8c.

White Perfection.

Large flowers on long stems. One of the best white asters for cutting. 8c.

Ostrich Plume.

A tall growing variety, very floriferous and excellent for cutting. Mixed colors. 5c.

Pluto.

A dark red of the ostrich type. A novel sort. 5c.

Purity.

A fine variety with glistening white flowers. Of symmetrical growth and habit; attains a height of 18 inches, and produces perfect globular flowers. 5c.

A. C. ANDERSON
Columbus, Neb.

Auricula

A hardy perennial species of primrose known as "French Cowslip." Produces an abundance of brilliant, fragrant blossoms of many colors. The plant is of dwarf habit, has beautiful foliage and the flowers are borne in clusters on 4 to 6 inch spikes. Fine for borders and pots. 4c.

Auricula.

Artemesia or "Summer Fir"

An ornamental annual from China, forming pyramidal bushes 3 to 5 feet high. As a solitary plant it looks like a nicely developed Christmas tree. As a pot plant it is also very pretty. Its ornamental foliage is dark green and is very desirable for wreaths and decorations. 5c.

Balsam

An old and favorite garden flower, producing its gorgeous masses of brilliant double flowers in greatest profusion. An annual of easy culture.

Camellia. This is the finest strain of double Balsams ever brought out. Ten colors mixed. 4c.

Defiance. The numerous double flowers completely cover the plant. Enormous flowers and rich colors. 5c.

BELLIS or DOUBLE DAISY

These are desirable for edgings, borders and lawns, and also well suited for growing in pots. Sow early for blooming the first season, or sow in the fall and winter in a cold frame. 1 p.

Longfellow. Extra large double rose-pink flowers. 5c.

Snowball. Very large, double, pure white flowers. 5c.

Mixed. An attractive mixture of choice double varieties. 5c.

BRACHYCOME

(Swan River Daisy.) A free flowering, dwarf growing annual. Plants covered during the greater part of the summer with a profusion of pretty blue and white flowers. Equally good for pots, bedding or edging. 5c.

Bellis or Double Daisy

Calceolaria

The new grandiflora type is a great improvement in these gorgeous plants for greenhouse and window decoration. The curiously shaped, pocket-like flowers are borne in great profusion. Fine varieties mixed. 6c.

Brachycome.

Canna

The new Dwarf Cannas are famous for their luxuriant growth and immense brilliant flowers in gorgeous colors. Their profusion and continuity of bloom under all conditions, render them easily the most useful, showy and popular garden plants grown. Soak seed in warm water.

Crozy's Hybrids.

A mixture of dwarf varieties. 4c.

Balsam.

Calendula

These are popular garden annuals of easy culture and profuse blooming qualities. It blooms continuously throughout the summer. It forms dwarf, bushy plants, and is literally covered with large double yellow and white flowers. The Calendula has been greatly improved and deserve a place in every garden. Fine mixed. 5c.

Campanula

These beautiful hardy perennials bear an abundance of attractive bell-shaped flowers. They thrive best in a light, rich, well drained soil, and are an attraction when in bloom.

Persicifolia Grandiflora. Desirable for both garden and pot culture, producing during summer large bell-shaped blossoms of blue or white. 2 to 3 feet high. 5c.

Pyramidalis. A beautiful stately hardy plant, either for garden or pot culture: blue or white salver shaped flowers. 4 feet. 5c.

Calceolaria.

A. C. ANDERSON.
Columbus, Neb.

Chrysanthemum

CALLIOPSIS

One of the most showy, free flowering of hardy annuals; its graceful and showy flowers, embracing nearly every shade of yellow, orange and rich brown, verging to crimson, and borne on slender stems, are particularly well adapted for bouquets.

Golden Wave.

Plant very bushy and compact, and covered with hundreds of beautiful golden yellow flowers 2 inches across. 3c.

Fine Mixed.

mixture of all colors. 3c.

CANDYTUFT

Among the most useful of perfectly hardy annuals. Will grow in any soil, requires no care, and produce neat clusters of flowers very freely.

Empress.

The finest of all white varieties. Im-
mense pyramidal blooms. 3c.

Carminata.

A fine
carmine colored sort. 3c.

Fine Mixed.

A
mixture of fine varieties. 3c.

Calliopsis Golden Wave

Carnation Marguerite

CANTERBURY BELLS

Beautiful hardy plants bearing numerous bell-shaped flowers. Thrives best in a light rich soil. h b.

Calycanthe- ma.

This is the finest variety, producing variously colored flowers, resembling a cup and saucer. 4c.

Fine Mixed.

A
mixture of double and single varieties. 3c.

CARNATION

Carnations are general favorites for their delicious fragrance and richness of colors. The varieties we offer are the best for garden culture, blooming profusely through the summer. h p.

Chabaud.

An early free-flowering variety with a large percentage of fine double flowers. 4c.

Marguerite.

A popular and desirable ever blooming variety. The colors are very beautiful. 4c.

Centrosema Grandiflora.

Centrosema Grandiflora

This is a fine hardy herbaceous perennial vine, rivaling the clematis in wealth of bloom. It forms a dense mass six to eight feet high, which through July and August is covered with sweet pea-like blossoms one and a half to two inches in diameter. The color is a lovely shade of lilac-blue with feathery markings of a deeper shade and a dash of pure white in the center of each flower. It is perfectly hardy. 5c.

Centaurea

Desirable hardy annuals, some of which are useful for cut flowers. They thrive in any situation.

Imperialis.

The finest of all Sweet Sultans for cut flower purposes. Long stems, beautiful sweet-scented, artistic shaped flowers. Finest colors mixed. 4c.

Margaritae.

This produces pure white flowers, deliciously scented, exquisitely lacinated, and freely produced on long stems. Valuable for cutting. 4c.

Chrysanthemum

A handsome plant, with striking and brilliant flowers blooming till late in autumn, when it is in full glory; producing double and single flowers of various shades; very attractive for bouquets and vases. Sometimes called "Painted Daisies." Hardy annuals.

Fine Mixed.

This mixture comprises many beautiful varieties in various and brilliant colors. These attractive flowers deserve a place in every garden. 3c.

Clarkia

Cineraria

Cineraria

An exceedingly beautiful house plant, with flowers of great richness and diversity of color, blooming during the winter and spring months, and can be planted out in summer. They thrive best in a mixture of loam and peat. t p. 5c.

Clarkia

Among our many pretty annuals none has more beautiful flowers or is more easily grown. It is excellent for cutting, the charming double flowers lasting a long time. Rich rose, white, red and purple colors. 3c.

Coreopsis Lanceolata

Coreopsis Lanceolata

This is one of the finest of hardy plants, with large, showy, bright yellow flowers produced in greatest abundance from June till frost. As a cut flower they stand at the head among hardy plants, having long stems and lasting in good condition a week or more. Grown easily from seed. 5c.

Cobaea

A rapid growing climber, forming a dense mass of foliage in a short time which is thickly interspersed with large purple and white bell-shaped flowers. Valuable for covering trellises, arbors, trunks and walls; will cling to any rough surface. In sowing, place the seed edgewise and merely cover the seed with light soil; to get early plants, sow the seed indoors in March or April; can also be sown outside in May. 5c

COCKSCOMB

Attractive annuals, producing massive heads of rich shades and colors, of great effect in the garden or in pots. They withstand drouth well. 3c.

COBAEA

Coleus.

Highly ornamental plants in an endless variety of colors and shadings, indispensable for ribbon and carpet bedding, or as single specimens for pots and vases. h p p. 4c.

Cosmos

One of the notable fall flowers. A strong, tall-growing annual, with bold flowers of exquisite daintiness and airiness, heightened in effect by their foliage-setting of feathery green.

Giant.

A mixture of large flowering sorts. 4c.

Dwarf.

Early flowering varieties mixed. 4c

Cosmidium

Orange Crown.

An interesting annual, growing about two feet high, bearing numerous large flower heads on long stems well above the foliage. The flowers last well in water, which makes them desirable for cutting. Color, golden-yellow with a broad circle of a rich orange around the disk, a pleasing combination. A successive and profuse bloomer. An attractive, meritorious and pleasing novelty. 4c.

Coleus

Cosmos

Cockscomb

Cyclamen

Well known and charming Bulbous rooted plants with beautiful foliage and handsome fragrant flowers. Universal favorite for the greenhouse or parlor and for winter and spring blooming. If sown early in the spring they make flowering bulbs in one season; they require sandy loam. We offer a fine strain of large flowering sorts. 6c.

Cypress Vine

A delicate little climber, with lace-like leaves and scarlet, star-shaped flowers. Seeds will sprout more rapidly if soaked, before planting, in luke warm water. h a. 3c.

Dahlia

This most popular plant can be grown successfully from seed, and will bloom the first season if started early. t p.

Double Mixed.

A superlative mixture of the finest and most brilliant of the show, decorative and cactus varieties.

Collarette Mixed.

Flowers of various colors, adorned with a collar of small petals around the center, novel and beautiful. Choice varieties. 5c.

Single Mixed.

The richest and most pronounced colors, varying to delicate shades; and unique combinations of exquisite tints. A truly Magnificent class. 4c.

Burbank's Shasta Daisy

Daisy

Burbank's Shasta.

A superb hardy variety that will withstand the severest winter without injury. The flowers are extremely large and graceful, with petals of the purest glistering whiteness, and are borne on long stems. The blooms when cut remain fresh for a long time. 4c.

Datura

Ornamental and stately hardy annuals of majestic appearance. Admirably adapted for single specimens, making handsome plants 2 to 3 feet high.

Cornucopia.

Large double flowers, white inside, purple outside; delightfully fragrant, started early will flower in July. 4c.

Fastuosa.

A mixture of double sorts. 4c.

Cyclamen

Delphinium

One of the most showy and useful of hardy perennials, producing grand spikes of flowers throughout the summer and autumn. If sown early will bloom the first season. Finest sorts mixed. 5c.

DICTAMNUS FRAXINELLA

A very showy border perennial, forming a good sized bush having lemon scented foliage, spikes of curiously shaped flowers, giving off during the hot weather a fragrant volatile oil, which under some conditions may be lighted when a match is applied to it. They require a heavy, strong soil and an open, sunny position. It is not advisable to transplant as they improve with age. 4c.

Dianthus--Pink

The China and Japan Pinks are deservedly very popular, as few flowers can equal them in beauty and profusion of bloom. They bloom continually all summer and fall, until overtaken by frost; they live over winter and bloom again the second season. The plants grow about one foot high. h b.

Chinensis.

(Double Chinese Pink). A great variation of brilliant colors, unique pencillings and delicate shades. 3c.

Heddewigi.

(Japan Pink). Large, double blossoms, three inches across. Many rare and beautiful colors mixed. 4c.

Digitalis--Fox Glove

Handsome and highly ornamental plants of stately growth, succeeding under almost all conditions, and will give a wealth of flowers in June and July. h p.

Gloxiniaflora.

Large gloxinia-like flowers of various colors, with beautiful markings, spots and blotches. 4c.

Monstrosa.

Unique and beautiful; the large spikes are surmounted by a large bell-shaped flower. 5c.

DIMORPHOTHECA or African Daisy

A rare and extremely beautiful annual, with flowers varying in color from white to red and tints of sulphur, lemon and golden-yellow. 5c.

Datura Cornucopia:

A. C. ANDERSON
Columbus, Neb.

Four O'clock

Godetia

Grevillea Robusta

Eschscholtzia--California Poppy

A hardy annual, growing about one foot high, bearing an abundance of flowers about two inches in diameter, of various colors, variegations and shades that make a blaze of color in the sunshine, and fully as valuable as the common poppy for garden ornamentation, and as easily grown. 3c.

FOUR O'CLOCK

No flower makes a prettier border than the old fashioned Four O'clock. It is one of the most brilliant and showy plants that can be grown. The flowers, which are produced in clusters, present a gorgeous sight during the afternoon. 1 h. a. 3c.

Gaillardia

One of the most brilliant and dazzling of our garden flowers. Most suitable for bedding, producing large flowers in great abundance throughout the entire summer. Fine for cut flowers.

Lorenziana.

(Double Gaillardia). This is a charming double variety; and is a grand bouquet flower. Hardy annual. 4c.

Grandiflora.

These are undoubtedly among the choicest of hardy perennials; the flowers are large, very numerous, excellent for cutting, and of the most brilliant shades of orange, crimson, scarlet and vermilion, and very often a combination of all these colors in one flower. 4c.

Eschscholtzia or California Poppy

Geranium

These are popular house and garden plants; they are easily grown from seed, and will bloom in four or five months from time of sowing. Many colors mixed. 4c.

Gloxinia

Gloxinias are most charming summer-blooming pot plants for conservatory, greenhouse or window garden. The flowers are produced in great profusion, and of most exquisite and gorgeous colors, many of which are magnificently spotted, mottled and blended. g p. Mixed. 6c.

Godetia

Showy garden annuals, of compact growth, about 1 foot high, bearing freely flowers 3 to 4 inches across, of exquisite colors and shades that glisten in the sunlight like satin. The plants bloom profusely and attract much attention when in full flower. It deserves extensive cultivation. 3c.

Grevillea Robusta

A very beautiful and graceful decorative plant with fern-like foliage; excellent for table decoration; easily raised from seed, making good sized plants in a short time. 1 p. 5c.

Heliotrope

A universal favorite on account of its delightful fragrance and duration of bloom, flowering equally well as bedding plants in summer, or as pot plants in the house during the winter. The colors of the flowers range from white to deep purple. 1 p. 4c.

HELICHRYSUM

Large double flowers of brilliant colors, which keep perfect when dried. The finest everlasting. 3c.

Geranium

Heliotrope

A. C. ANDERSON
Columbus, Neb.

Hibiscus

Crimson Eye. This is a stately plant with flowers of immense size, often measuring six inches in diameter. The color is pure white, with velvety crimson eye, forming an effective contrast. It is a hardy perennial, of the easiest culture and will succeed anywhere. 4c.

Hibiscus Crimson Eye

Hollyhock

These are very desirable hardy perennials. For a background to a flower garden, perhaps no plant is so useful, the flowers are as double as a rose, of many shades of color. If started early they will bloom the first season.

Choice Double Mixed. A superior strain. 5c.

Ice Plant

Dwarf trailing plants of great beauty, blooming the whole summer, thriving best in a dry, loamy or sandy soil, requiring a warm, sunny situation. It has white flowers and singular icy foliage. Fine for baskets, vases and borders. 3c.

Impatiens Sultani

Charming plants for the decoration of the greenhouse, the window garden or the dinner table, producing bright, waxy-looking, brilliant rosy-scarlet flowers profusely and almost continuously. It is also valuable for the flower garden. 5c.

Ipomoea

Climbers of rapid growth, beautiful and varied flowers. Excellent for covering arbors or trellises. h a.

Japanese Imperial.

A rapid climber with flowers that are wonders of brilliancy in coloring and marvels in size. 4c.

Purpurea.

(Double Morning Glory) This is of rapid growth, producing its large double flowers very freely. 4c.

Lantana.

Hollyhock

Iris

Kaempferi

These are the beautiful hardy Japanese Iris, with wonderful showy flowers of the richest coloring, and ornamented with the most exquisite pencillings. 5c.

Lantana

Very free-flowering plants with brilliant colored flowers constantly changing in hue; fine for either bedding or pot culture. Plunge in pots and they will bloom more freely. t p. 4c.

Kochia Scoparia

A very ornamental annual plant of rapid growth. Grows from 2 to 3 feet in height, having a cypress like appearance. The leaves are slender and of a light pea-green color until September, when they change to carmine and blood-red. Sometimes called "Burning Bush." 4c.

Larkspur

Plants of great beauty, richness and endless variety of colors, with great duration and profusion of bloom and when planted in beds, masses or ribbon are strikingly effective: few plants are so useful for their decorative qualities either in the garden or when cut for bouquets. h a.

Double Rocket. Showy spikes of fine double flowers. 3c.

Stock-flowered. The finest variety of beautiful double flowers. Many colors mixed. 4c.

LAVATERA ARBOREA VAR

Large green leaves mottled with yellow, very decorative. The plant is covered during the entire summer with large cup shaped shrimp-pink flowers. h a. 4c.

Ipomoea Purpurea--Double Morning Glory.

Lobelia

Lobelia

A very beautiful class of mostly dwarf-growing plants. Their delicate drooping habit, and the profusion of their charming little flowers, render them exceedingly fine for vases, baskets, bedding or edgings. h a. Beautiful varieties mixed. 4c.

Lophospermum

A handsome climbing plant of rapid growth with heart-shaped leaves and rose colored gloxinia-like flowers. Its rapid growth and fine foliage with its beautiful flowers combine to make it one of the best plants for covering any unsightly object or for large vases on the lawn. Desirable for the house. t a .5c.

Lychnis

Handsome hardy perennial plants of easy culture, for massing in beds and borders; blooming the first

season if sown early. It produces fine scarlet, brilliant orange and glowing crimson flowers. 4c.

Marigold

Marigold

This is a favorite free flowering annual, with double flowers of rich and beautiful colors that produce a splendid effect, whether planted in beds or borders; and continuing in beauty until destroyed by frost.

African. Choice double large flowering varieties. 3c.

French. A dwarf variety with fine double flowers. 3c.

Mignonette

This fragrant little plant is probably the most popular annual grown. If the plants are thinned out they will grow stronger and produce larger spikes of flowers; and can be had during the whole year by sowing at intervals. A hardy annual, and will thrive in almost any situation.

Fine Mixed. A mixture of the finest sorts. 3c.

Nicotiana Affinis Hybrids

Mimulus

Among the gayest ornaments for flower gardens, hanging baskets, and for house culture, not many plants will give more satisfaction. The seed is very fine and care must be taken in sowing, shading and applying moisture till well rooted.

Tigrinus. Dwarf, bushy plants; 1 foot high, with gloxinia-like flowers of various colors, spotted and mottled. 5c.

Moschatus. A dwarf, trailing plant, with fragrant foliage, and yellow flowers. Commonly called Musk Plant. h h p. 4c.

Myosotis

(Forget-Me-Not.)

Popular plants, producing star-like flowers in great profusion; they grow freely in any soil, but a moist situation is best suited to them. Choicest colors mixed. h h p. 4c

Nasturtium

For ease of culture, duration of bloom, brilliancy of coloring and general excellence, nothing excels Nasturtiums. All they need is a moderately good soil in a well-drained, sunny position, and from within a few weeks from the time they are sown until hard frost comes there is an endless profusion of gorgeous blossoms.

Nasturtium

Dwarf Mixed. For summer flowers nothing can surpass these; the plants form perfect mounds, which are covered with gorgeous flowers. Pkt. 3c, ounce 10c.

Tall Mixed. These are among the easiest grown and prettiest of climbers. Pkt. 3c, ounce 10c.

Nicotiana

Affinis Hybrids.

A fine strain with large, sweet scented flowers, ranging in color through creamy white and rose tints to bright red and crimson. The plants are compact and grow about two feet high. 5c.

Mimulus

PANSY

The Pansy is the most popular and the most brilliant flower grown from seed. Pansies delight in a cool, moist situation, partially protected from the hot noonday sun; in exposed positions in the hot summer weather, the flowers will be smaller.

Superb Mixture. Fine varieties and choice colors mixed. 3c.

International Prize. These are wonders in size, perfection of form and gorgeous in color. An unsurpassed strain. 4c.

Trimardeau. A giant french strain, with extra large and fine flowers. 5c.

Masterpiece. A remarkable new type with large curled petals. The flowers are of enormous size, often measuring 3 inches across, and contain the richest combination of colors that ever have been offered in any strain of pansies. 6c.

Princess. A new variety of erect growth and robust habit, an entirely new departure in this popular plant. The stalks and stems are unusually firm and strong; they rise vertically from the root, and the laterals grow close thus making a compact bush. The flowers are of the large blotched and frilled types, and the range of color is quite extensive. 6c.

King of the Blacks. Almost coal black. A novel sort. 4c.

Eros. A beautiful bright brown, banded with an attractive golden edge. Very fine. 4c.

Freya. Violet-purple, edged with silver. A very beautiful and large flowered variety. 4c.

Snow Queen.

A charming white variety. 4c.

Striped. Richly marked with distinct stripes. 4c.

Dark Blue. A large and beautiful variety. 4c.

Light Blue. One of the best blooming varieties of the giant sorts. 4c.

Cassier. This is the Blotched Giant, one of the largest and the richest colored pansy out. 5c.

Special Pansy Offer.
I package each of the 13 varieties, post-paid for 35c.

Pansy Princess

Petunia Giants of California

Petunia

No class of flowers better repay the care they receive than these. The richness of color and abundance of elegant flowers make them indispensable for bedding plants. Every garden should have a bed of these magnificent flowers, a gay mass of bloom from June till frost.

Hybrida Mixed. A fine strain, with large flowers, many are striped and blotched. 3c.

Giants of California. A gigantic strain of great beauty, flowers often 4 to 5 inches across. Most of the flowers are exquisitely ruffled or fringed and of every conceivable shade of crimson, pink, lavender, pure white, and the most grotesque and beautiful combinations; some with charming deep throats of yellow, white, black, green or maroon. 7c.

Double Mixed. The seed offered is carefully fecundated with the best double flowers. Sure to produce a good percentage of double. Perfectly magnificent. 7c.

Phlox Drummondii

Superb plants, prized for the profusion of their richly colored flowers of many hues, their long duration in bloom, and the grand effect they produce in masses.

Grandiflora Mixed. Large flowering sorts. 3c.

Grandiflora Alba. Pure white, very large. 4c.

Grandiflora Coccinea. Scarlet, fine. 4c.

Grandiflora Rosea. Fine rose colored. 4c.

Double Mixed. A profuse bloomer, and of great value for bouquets, lasting better than the single sorts. 5c.

Pansy Masterpiece

3 PRIMULA PLANTS, My selection of varieties, 25c.

A. C. ANDERSON, Columbus, Neb.

Kunderdi Glory

Empress of India

Popular Plant Collections

We take pleasure in offering a number of plant collections at popular prices, which makes it possible for anyone to get a fine assortment of plants at greatly reduced cost. The prices include postage on all orders sent by mail. We put up plants sent by mail in the best possible manner, packing in strong corrugated boxes, but we will not be responsible for condition or replace any that may be damaged in the mails. This is the only way we care to send plants by mail, since many states require examination of plants before they are delivered to addressee, and sometimes, though rarely, it happens some of the plants get damaged. We will sell one-half of any collection at the same rate as a full collection, but no order under \$1.00 will be filled. This offer will enable you to secure a greater variety of plants.

Price of Popular Plant Collections, \$1.00 each.

One-half Collections, 50c, but no order under \$1.00 filled. No discount allowed on plant collections. Order collections by number.

PLANTS For Bedding and Pot Culture

It is with pleasure I present this list of Choice Plants to my customers, knowing I place it within the means of everyone to get a fine assortment. Although sold at comparatively low prices my plants are in no way inferior to those of other florists, and in one respect are superior to many, they being grown in cool greenhouses so they are not unnecessarily forced, and thus stronger than those propagated in the excessive heat kept in many houses.

PLANTS BY MAIL. We will send plants by mail, postpaid, at the prices given, but will in no case be responsible for loss or damage to plants sent by mail. We pack plants with all possible care and ordinarily they carry in the mails in good order.

PLANTS BY EXPRESS. Plants sent by express will be turned out of the pots, with the soil left on the roots, carefully wrapped in paper, and packed light. We make no charge for packing at the prices quoted, but the purchaser pays all the express charges.

No plant order under \$1.00 will be filled Special Discount on Plants

On orders amounting to	\$2.00	10 per cent discount.
On orders amounting to	\$3.00	15 per cent discount.
On orders amounting to	\$5.00	20 per cent discount.

On orders amounting to	\$15.00	35 per cent discount.

This discount applies to plants, only--not seeds or Gladioli bulbs.

Alyssum. Little Gem. Fine for edging; double white flowers. 2-inch pots, 15c.

Asparagus. Plumosus. A beautiful fine leaved variety, excellent for cut flower work and grand for window decoration. Often called "lace fern." 2-inch pots, 15c. 3-inch, 25c. 4-inch, 50c.

Sprenger. Fine dark leaved drooping variety, excellent for baskets and boxes; will stand much neglect. 2-inch pots, 15c. 3-inch, 25c. 4-inch, 50c.

Begonias. Beautiful plants for house and shady situations outside. These fine plants are easily grown. Bertha. Currant-red; a charming variety. Corallina Lucerna. A superb variety, producing gigantic trusses of large, coral-red flowers. Deucharri. Olive-green leaves, of a rich velvet appearance; immense white flowers.

Glory de Chatelane. A free flowering, clear pink variety; excellent for house culture and bedding.

Craclis Luminosa. Rich luminous crimson flowers; a gorgeous and free bloomer.

Marguerite. A charming variety with bronze-green leaves with purplish cast; rosy flowers.

McBethi. Foliage fern-like, panicles of pure white flowers, produced in great profusion.

Thurstoni. Large metallic foliage of rich bronze effect. Conspicuous flowers of a bright pink.

Weltoniensis. Flowers a rich shade of pink, stems red. A profuse and lasting bloomer.

Zebrina. Leaves satiny green, with a silvery tinge along the midrib; white flowers.

Price of Begonias. 2-inch pots, 15c.

Rex Begonias. We have a fine assortment of these beautiful plants. 2-inch pots, 25c.

Calla. Godfrey. A dwarf, free flowering variety; pure white, and gives more flowers than any other variety, and fully as large. 2-inch pots, 15c.

Caladium. Esculentum. The leaves attain enormous proportions, making the plant desirable for large vases and specimens or groups. 15c.

Cannas. Unsurpassed for grouping and massing.

Allemania. Orange-scarlet, yellow border. 5 ft.

Burbank. Rich canary yellow. 5 feet.

Firebird. Immense, round and shapely flowers in large trusses. The color is deep crimson. 4 feet.

George Washington. Rich velvety crimson. A very desirable variety. 4 feet.

Hungaria. Immense trusses of very large flowers, of a rich pink color. 4 feet.

King Humbert. Enormous flowers of a deep scarlet, shaded orange. Massive bronzy-red foliage and immense heads of flowers. 4 feet.

M'le Berat. Flowers good size, cerise-pink without any shading. A showy variety. 4 feet.

Yellow King Humbert. An exceedingly beautiful orchid-flowering variety with dark green foliage and very large, deep rich yellow flowers, heavily spotted and blotched with bright red. 4 feet. Wintzer's Colossal. Undoubtedly the largest flowered Cannas grown. Color vivid scarlet. 5 ft. Price of Cannas, 15c. each.

Carnations. These are fine winter bloomers, and is one of the sweetest flowers grown.

Enchantress. Flowers large, long stemmed and freely produced. Color light silvery pink.

Nabraska. Deep, glowing scarlet, a beautiful free flowering variety with stiff stems.

Rose-Pink. A beautiful deep rose color. Flowers large, and borne erect on strong stems.

White Enchantress. A strong grower, with very large, pure white flowers.

Price of Carnation plants. 2-inch pots, 15c.

Chrysanthemums. The beautiful "Queen of Autumn." The large flowers of every character and form attract the attention of all who are interested in flowers.

Charles Rager. A lovely pure white, with strong stem and handsome foliage.

Chieftain. This is perfection in form and color; a charming pink, incurved variety.

Crimson Beauty. A deep maroon-crimson; fine flowers on long stems.

Dr. Enguehard. A very large variety of elegant habit; color bright rose-pink.

Maj. Bonnafon. The long, incurving, golden petals are glorious; a magnificent sort.

Helen Frick. A lovely large flowering pink variety of the incurved type. Blooms late.

Mrs. Pollworth. A fine yellow variety blooming early in the season. Strong, erect stems.

Roman Gold. Beautiful golden yellow flowers of immense size. Finely incurved.

Tiperary. The new late white; considered the largest and finest of all.

Wm. Turner. A perfect ball of pure white; very large and beautifully incurved.

Baby Margaret. (Pompon) A lovely variety with small white flowers.

Leota. (Pompon) Lovely light pink, form of a feverfew; a very free bloomer and fine for pots.

Klondyke. (Pompon) One of the most beautiful yellows in the family; extra fine.

Price of Chrysanthemums, 2-inch pots, 15c.

Coleus. Nothing can excel the Coleus where ornamental foliage is wanted for bedding or pot culture.

Bedding Varieties. We can supply a number of good bedding varieties in rich colors.

Traffing Queen. Elegantly fringed leaves, blending from pink to crimson. Fine for baskets.

Traffing Gem. Leaves white, edged with green. Price of Coleus, 2-inch pots, 10c. each.

Cyclamen. These are among the most beautiful and interesting winter and spring flowering bulbs for the window and greenhouse. Both flowers and foliage are strikingly beautiful. 3-inch. 20c.

Dahlia. These are among the showiest of our summer flowers.

A. D. Livoni. A beautiful soft pink with quilled petals an early and profuse bloomer.

Arabella. Extra large, round flowers; canary yellow, tipped and marked with rose.

Boa Maza. An old variety, but one of the best. Variegated white and bright red.

Countess of Londale. Salmon, with apricot tint. A fine cactus variety.

Dobroc. A free blooming bright yellow variety. One of the best, and easily grown.

Snow. A charming white variety, long stems, fine for cutting and a profuse bloomer.

Sylvia. Long stems and graceful habit; of good form and full to the center. Delicate pink.

Price of Dahlias, dry tubers, 15c. each.

Echeveria. A little succulent plant, commonly called "Old Hen and Chickens." Used in parks and cemeteries for ribbon beds, borders and lettering. A pleasing curiosity. 1c. each.

Ferns: Decorative in pots and window boxes in shady situations.

Boston Roosevelt. This is an improvement on the Boston Fern, producing more fronds, thus making a bushier, handsomer plant. The pinnae are beautifully undulated, giving it a pronounced wavy effect seen in no other fern.

Whitmani compacta. Unquestionably the most valuable type yet introduced. This beautiful "Ostrich Plume" fern is of compact habit, the pinnae are deeply divided, giving the plant a very graceful appearance. The distinctly imbricated fronds makes it the most decorative of all ferns. This should be found in every collection.

Prices of Ferns, 2-inch pots, 15c.; 3-inch, 25c.; 4-inch, 50c.; 5-inch \$1.00.

Feverfew. Little Gem. This sort surpasses the old variety in every respect. The flowers are larger and of more perfect form, of the purest white and of free flowering habit, the plant being literally loaded with flowers. 2-inch pots, 15c.

Fuchsia. Lovely summer blooming plants for shady situations.

Black Prince. Sepals carmine; corolla reddish-rose; easily grown and one of the best single.

Speciosa. Pale pink tube and sepals; dark pink corolla. An early bloomer. A fine single sort.

Trophee. Round red bud, opening into beautiful double, deep purple flowers.

Storm King. Sepals dazzling scarlet; corolla pearly white, very large and double.

Price of Fuchsias, 2-inch pots, 15c.

Geraniums--Double. We offer a fine assortment of these popular plants.

Bertha de Pressily. A most beautiful shade of silver-rose of exquisite brightness.

Contraste. In color this is a counterpart of the famous American Beauty Rose, a rich red, passing to crimson, delicately veined.

Fleuve Blanc. A large flowering pure white geranium; exceptionally good for pots or bedding.

Glorie de France. One of the most beautiful. Flowers carmine and white, pale red center.

Idole. A magnificent combination of colors; center of flowers white, gradually shading to the most exquisite soft crimson.

Jean Oberle. Color a beautiful hydrangea-pink. A magnificent free blooming variety.

Jean Viaud. Large individual florets, borne in massive trusses. Color, bright rosy-pink with distinct white blotch.

La Favorite. A very free flowering double white variety; dwarf and compact habit.

Marquis de Castelfa. A giant among geraniums, and a free bloomer. Deep rosy-scarlet and crimson. One of the best bedding varieties.

Perle des Roses. An excellent bedding variety. Large trusses of rose colored flowers, a free and constant bloomer.
